SUMMARY

Software Developer with 3+ years of professional experience, frontend-focused, delivering production-ready web applications using React, Next.js, Angular, and TypeScript while collaborating with cross-functional teams.

WORK EXPERIENCE

Software Developer (Frontend-Focused), Moonlay Technologies **March 2022 - Present**

- Developed and maintained frontend applications using React, TypeScript, and Next.js.
- Contributed to 7 client projects, delivering a total of 19 frontend applications using React and Angular.
- Worked on frontend bug fixing, maintenance, and feature development, improving application stability and user experience across ongoing projects.
- Developed 5 React applications and 1 Angular application, with limited backend exposure using C#.
- Designed and implemented a shared frontend boilerplate that streamlined development workflows and improved UI consistency across multiple applications.
- Collaborated with backend engineers on REST API integration for frontend applications.
- Collaborated with Product Owners, UI/UX Designers, and Backend Engineers to align technical solutions with business needs.
- Participated in frontend-focused code reviews across multiple repositories.
- Delivered high-quality frontend UI despite backend constraints, resulting in continued project development.
- Conducted onboarding and technical introductions for each intern batch.
- Guided interns through building simple frontend projects and provided code reviews.
